DETAILED ACTION

1. This office action is responsive to papers filed on January 24, 2003.

Claim Rejections - 35 USC § 102

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-17, 19 and 20 are rejected under 35 U.S.C. 102(e) as being anticipated by Lee et al.

Since the scope of the claims has been drawn to correspond exactly to the claims of the patent, the instant application is anticipated by the prior art relied upon by the Examiner.

The Examiner has carefully considered applicants remarks and their assertions pertaining to support for the instant applications claims based on the provisional application. The Examiner disagrees with the assertions made in the response. There is no basis in fact for many of the recitations made in the instant claims. For example, there is nothing to support setting a lower limit of 25 nA for electron beam current as claimed. Merely stating that this number is below an example from the provisional application does not provide basis, or support, for this lower limit.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
